

## Серия Стандарт

Лампа серии Стандарт- это наиболее полный ассортимент бытовых светодиодных ламп.

Отличительной особенностью данной серии является увеличенная гарантия качества, работа в широком диапазоне напряжений, корректная работа с выключателем с подсветкой и отсутствие пульсаций.

## Технические характеристики

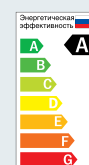

- Стабильная работа в сети 175-265В
- Без пульсаций
- Корректная работа с выключателем с подсветкой
- Использовать при t от -25°C до 50°C
- Индекс цветопередачи Ra>80
- Не нагревается до высоких температур и может использоваться в любых светильниках

**⚠** Не использовать в системах с регуляторами яркости, электронными стартерами, реле времени, световыми датчиками и при наружном освещении в открытых светильниках.

## Области применения

Объекты инфраструктуры

## Ассортимент
